## CRISCO Local Process - Reporting

### A. Local Process - Introduction

Local Panels of Stakeholders (LPS) are central in CRISCO.

- Each CRISCO participant sets up a motivated, active and well-balanced LPS (based on these proportions: 1/3 of citizens or citizens' organizations, 1/3 non-profit and civil society organizations, and 1/3 experts, officials and local authorities), that will meet regularly to experiment and review (new or existing) local integration initiatives.
- In each CRISCO partner, the LPS is composed of at least 18 formal members (at least one signed attendance list per reporting period is necessary – 4 in total), but may be widely enlarged by the informal participation of the wider local community.
- Building on their existing mechanisms of local democracy, each partner town will maintain existing or develop new instruments to involve local stakeholders and citizens in the project, especially the “hard-to-reach” groups.
- For this purpose, different participatory approaches, adapted to their specific conditions and needs, are expected to be maintained or developed by the CRISCO partners
- Local activities could be of two main types:
  - *Reflection*: debates, workshops, in-field visits, review of existing local initiatives (including interviews or questionnaires), invitation of external ‘experts’ or ‘resource persons’ (including from other CRISCO partners), etc.;
  - *Action*: launch, activate, enrich or adapt (new or existing) local integration initiatives with a focus on the theme for the reporting period (4 in total).
- Local activities reported in the CRISCO reports may be activities that take place in the context of other local initiatives but must be relevant for and linked to CRISCO (logos...).

Important note: CRISCO partners may take part as ‘experts’, ‘external resource persons’ or ‘interested persons’ in the local process of another partner (2 missions per CRISCO partner), following rules that will be established for CRISCO (relevance, cost efficiency...).

**Please submit (at [crisco@etterbeek.irisnet.be](mailto:crisco@etterbeek.irisnet.be)) each local process report and its annexes not later than 1 month after the end of the reporting period (4 in total).**

**Reports must be written in English language.**

**Please send pdf documents and keep all original documents in your possession and in good conditions until five years after the end of the project.**

Name(s) of the person(s): .....

Motivation, reason of the visit(s): .....

Type of activity:

☐ Reflection (e.g. meeting, debate...): .....

☐ Action (e.g. activity, course, social event...): .....

☒ **Mixed (e.g. workshop, in-field visit...):** *workshop, singing.*

Description of the activity (about 10 lines):

*The fest started in the morning until afternoon. There was a lot of activities in the fest, so refugees could take a part in these activities with local communities. They also where near their tent. In fact their point was very popular, because Jonava's people didn't wanted to miss a chance of trying something different to eat. Of course there was a language barrier, but with help of other people, they could find the right words. The food was so popular, that they sold out everything quite fast. Then they where sitting with everybody near scene and watching the performances.*

Results and outcomes of the activity (max. 10 lines):

*First of all, most of them before they get to Lithuania, they didn't know nothing about our country. So it's very important to brake the ice and to make a first steps. Fests and events like "Autumn fest" is very usefull for both sides, because contributes to enhanced integration of migrants and refugees and better understanding of the local community. Shared cultural events activities help people exchange, understand each other, and act together. The authorities have observed that through shared sports and leisure activities, have proved that local citizens and migrants can find points in common and work together.*

Relevance for and link to CRISCO (max. 5 lines):

*The local meeting made us start our reflections on social cohesion. It made relevant partners meet – and thereby already get the possibility to work together – equally. At the same time, the meeting gave relevant thoughts for the coming transnational meeting.*
