CRISCO Local Process - Reporting

A. Local Process - Introduction

Local Panels of Stakeholders (LPS) are central in CRISCO.

- Each CRISCO participant sets up a motivated, active and well-balanced LPS (based on these proportions: 1/3 of citizens or citizens' organizations, 1/3 non-profit and civil society organizations, and 1/3 experts, officials and local authorities), that will meet regularly to **experiment and review (new or existing) local integration initiatives**.
- In each CRISCO partner, the LPS is composed of at least 18 formal members (**at least one signed attendance list per reporting period** is necessary – 4 in total), but may be widely enlarged by the informal participation of the wider local community.
- Building on their existing mechanisms of local democracy, each partner town will maintain existing or develop new instruments to involve local stakeholders and citizens in the project, especially the “hard-to-reach” groups.
- For this purpose, different participatory approaches, adapted to their specific conditions and needs, are expected to be maintained or developed by the CRISCO partners
- Local activities could be of two main types:
 - Reflection*: debates, workshops, in-field visits, review of existing local initiatives (including interviews or questionnaires), invitation of external ‘experts’ or ‘resource persons’ (including from other CRISCO partners), etc.;
 - Action*: launch, activate, enrich or adapt (new or existing) local integration initiatives with a focus on the theme for the reporting period (4 in total).
- Local activities reported in the CRISCO reports may be activities that take place in the context of other local initiatives but must be relevant for and linked to CRISCO (logos...).**

Important note: **CRISCO partners may take part as ‘experts’, ‘external resource persons’ or ‘interested persons’ in the local process of another partner (2 missions per CRISCO partner), following rules that will be established for CRISCO (relevance, cost efficiency...).**

Please submit (at crisco@etterbeek.irisnet.be) each local process report and its annexes not later than 1 month after the end of the reporting period (4 in total).

Reports must be written in English language.

Please send pdf documents and keep all original documents in your possession and in good conditions until five years after the end of the project.

- Summary of the local process for the reporting period (max. 10 lines):

During the period we have:

- *Gathered the panel group – which have reached 21 persons all in all*
- *Prepared for the first local meeting*
- *Sent invitation to the panel group including questions to reflect upon before the meeting*
- *Held a 2 hours local meeting with the theme: Cultural and social barriers to integration*
- *Sent a summary of the discussion and ideas from the local meeting*
- *Sent invitation to the transnational meeting in Basso del Grappa and recruited the participants*
- *Participated in the transnational meeting in Basso del Grappa*

- What are the 3 things you consider successful and 3-unsuccessful about the local process for the reporting period (max. 10 lines):

Success

The participation in the local meeting was quite good. There was interest from all the involved stakeholders. The topic discussed is a topic which is interesting for everybody, as most of all Albanian families have same relatives' emigrant in different countries. Participation in the group of different persons who had been emigrants for many years.

Unsuccessful:

For the next local meeting we want to be more focused on the subjects. Also we think to focus even in the territorial area, as we cover a quite big territory with different issues. And we should take different approaches to be more specific.

Results and outcomes of the activity (max. 10 lines):

In summary the thoughts from the three activities from the local meeting was:

Barriers to social cohesion:

The overall barrier mentioned was the difference/division created between the returning emigrants and the residents. The returning emigrants mostly from Greece had lost their relationship with the residents in their old neighborhood. This emigrants returning after 10 or more years, sometimes had children not speaking Albanian or different schooling systems. For this people was difficult to reintegrate in the Albanian culture.

Factors involved in good practices:

The main factors for success regarding social cohesion are economic help with grants and funds and also special classes for the kids to learn the grammar of Albanian language and follow up of different school subjects.

Vision for social cohesion in Vlora:

Some of the elements in the visions for Vlora were:

To reconnect the returning emigrants with their country, land, neighbors.

Relevance for and link to CRISCO (max. 5 lines):

The local meeting made us start our reflections on social cohesion. It made relevant partners meet – and thereby already get the possibility to work together – equally. At the same time, the meeting gave relevant thoughts for the coming transnational meeting.
