

We decided to use as example for CRISCO project our local Autumn fest, which is became traditional in Jonava. During the fest local communitys bringing their grown vegetables, fruits, berries, mushrooms, handcrafts and different home dishes.

Rukla's refugee centre was participating in Autumn fest. The refugees were demonstrating their national clothes, making and selling their national dishes, also singing their songs on scene.

Local people and refugees had a chance to talk free about common and easy themes. People had a chance to try other countries national dishes. Refugees had a chance to represent their countries and were performing on stage.

248 from 344 refugees (who came to Lithuania by EU given quota) left the country and none of them came back.

<https://www.delfi.lt/news/daily/lithuania/dauguma-pabegeliu-pabego-is-lietuvos-viena-bande-grazinti-bet-ir-tas-dingo.d?id=75018658>

The majority refugees have a goal, how to get to Germany or other countries with high level of living.

They have a friends there, so it's hard to keep them in Lithuania. Usually stays refugees from slavish countries like Ukraine.

Nothing is easy in this world ☺
